

During National Careers Week (May 18 – 22), Year13 will turn into a careers exhibition like no other.

“We’re running the Year13 Expo a little differently than other careers fairs. For years now, we’ve been listening to the questions you guys have had about the future. We know you’re keen to hear more about the benefits of studying versus working, whether you should take a gap year, if an apprenticeship is right for you, what the perks of working in different industries are and how amazing people got to where they are today”.

From May 18-22, you’ll be able to explore exhibits from a host of different universities, TAFEs, colleges, employers and gap year providers. But you’ll also get the opportunity to hear from some amazing career folk who are nailing it in their industry. Through a series of live chats, **webinars** and online ‘booths’, the Year13 Expo will help you figure out what it is you’re passionate about and what you need to do in order to get there.

WEBINARS

Federation University presents the Fed Future Webinar series. Join us over the next few days as we explore your career and study options, how to prepare for interviews and folio submissions and what scholarships, bursaries and grants you may be eligible for.

Individual Webinar Topics

Monday May 11th - 6:00-6:30pm

Webinar 1: Explore your career and study options

We understand choosing a career can be overwhelming. Join us to learn more about university study options and gain student insight into what it’s really like to study at Federation.

Wednesday May 13th - 6:00-6:40pm

Webinar 2: Your pathway, your future

Everyone’s career pathway is different. Whether you don’t achieve the ATAR you were hoping for, or you’re returning to study for a career change, join us to learn which pathway options suit you, including TAFE courses available and several fast track options for gaining entry into university degrees. Also hear from a current student about their transition from TAFE to university.

Thursday May 14th - 6:00-6:40pm

Webinar 3: Student support through scholarships, bursaries and grants.

Learn more about financial support opportunities available at Federation University. Discover a range of scholarships and grants including those for high-achievers, students experiencing financial hardship, as well as those moving from a remote area. Also hear from a current student about how receiving a scholarship has provided new opportunities.

Monday May 18th - 12:30-13:10

Webinar 4: Visual & Fine Arts – Preparing your folio and interview tips

Suitable for students studying Studio Art, Art or practising artists looking to apply to the Federation University Arts Academy. Receive valuable advice on folio preparation as well as application submissions and hear from a current student about what it’s really like to study at our renowned Arts Academy.

Register your attendance here -

The latest edition of **Careers with STEM** magazine is [out now](#), all about careers that use maths and data everyday.

Produced quarterly, [Careers with STEM magazine](#) is all about inspiring and informing you about the jobs of the future. In our [latest edition](#), you'll find out how maths and data has been central to how the world has responded to the [COVID-19 pandemic](#), plus meet a real-life health data scientist.

You'll also meet maths & data experts helping us understand everything from extreme weather and bushfires to YouTube trends and our online shopping habits! Discover how data is like the bricks and mortar for building smarter and more liveable cities in the 21st century, plus how we're using maths to boost athletic performance. We also chatted to an #instafamous tradie about why you really shouldn't drop maths!

RMIT SNAP PROGRAM

RMIT's Schools Network Access Program (SNAP) is one of the ways in which RMIT ensure a diverse and inclusive student population (TAFE and University)

The SNAP access scheme is designed to increase tertiary access and participation of eligible students from SNAP partner schools by giving them priority access to RMIT's Certificate IV, Diploma, Advanced diploma, Associate degree and Degree courses.

If you are not sure whether you go to a SNAP school, refer to the [list of SNAP schools](#).

Am I eligible?

To be eligible to receive SNAP consideration you must:

- be an Australian or New Zealand citizen, a permanent Australian resident, or a person seeking asylum
- be a current student at a SNAP school
- successfully complete any RMIT program prerequisites and extra requirements.

How it works

To receive SNAP consideration for a given course, applicants must have an ATAR that is within 20 points of the lowest selection rank (including adjustments) for that course. Depending on the applicant's initial ATAR and the competitiveness of the course, this may deem them eligible for an offer.

For courses that select on a range of criteria such as folio or interview, SNAP applicants receive equivalent consideration on their performance in these tasks.

SNAP minimum English study scores

SNAP applicants applying for bachelor degree courses are required to meet an alternative minimum English study score. For entry to bachelor degree courses, the minimum English study score for SNAP applicants is 5 points lower than the published English study score.

For example, where a course has a published minimum English study score of 25 in any English (except EAL) or 30 in English (EAL), SNAP applicants must achieve a minimum study score of 20 in any English (except EAL) or 25 in English (EAL).

How to apply

1. Apply for courses of your choice through VTAC.
2. Apply for the Special Entry Access Scheme (SEAS) through VTAC and answer yes to Question 1 of Category 1.
