CAREER RESEARCH

CAREER CLUSTERS

Which Cluster are you?

Research shows that there are common traits, tasks, and ways of working that go beyond industries or jobs. By shifting the focus from which job or industry, to “Which Cluster?”, it becomes much easier for students to identify where they fit and to start talking about the possibilities.

Let's take a quick look at the six (6) Career Clusters:

Guardians protect our mental and physical wellbeing. They help us care for our health, and guard against illness and injury.

Coordinators are the people who plan, prepare, and administer our events, systems and economy. They play a vital role in making sure everything runs smoothly.

Innovators design, engineer, and manufacture things we use in all areas of our lives, from the clothes we wear, to the food we eat, the homes we live in and the roads we drive on.

Linkers help us find, choose, secure, and use things. They can help us with products and physical items, or with the services and support we need.

Informers advise, teach, and guide us so we can manage our legal, social, and financial responsibilities, and participate in society.

Makers create and maintain the places where we live and work. They grow crops, build homes, repair vehicles, and keep the power on.
